This ground is reserved capacity. A data center pours the option in concrete.

1958
Fifth runway enters Dulles designs

1985
Capacity carried in the master plan

2005
FAA approves fourth and fifth runways

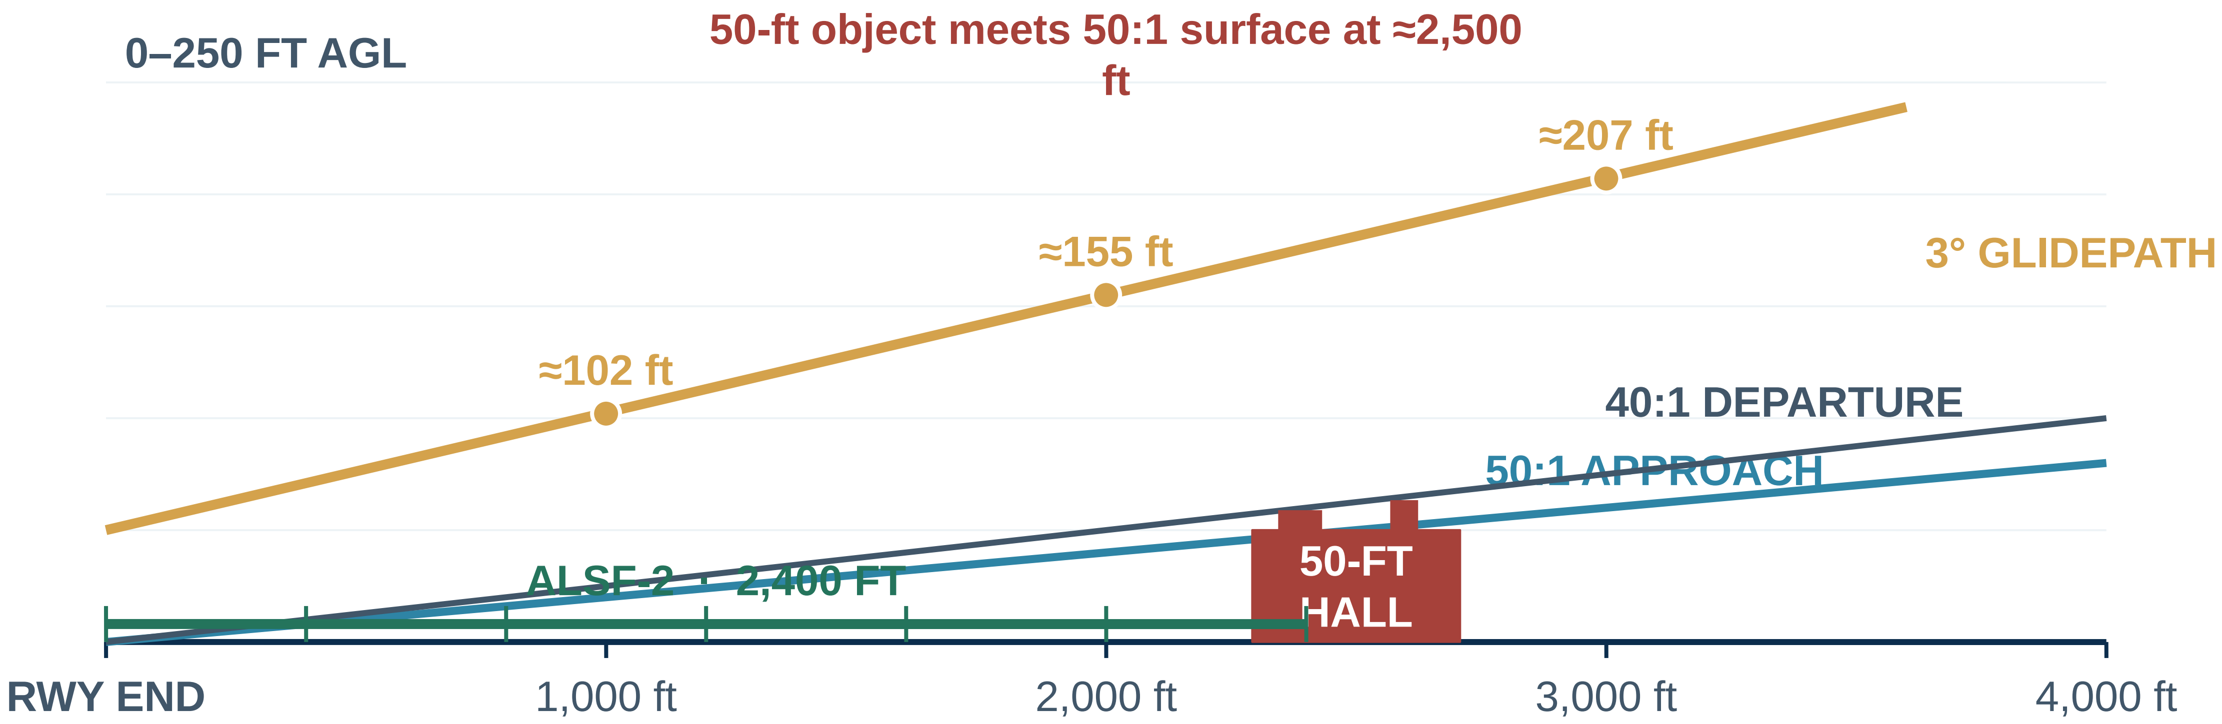
2024
27.25M passengers; United ≈70% of flights

2025
Board reaffirms path toward ≈90M passengers

The parcel sits inside the RWY 1L approach and RWY 19R departure surfaces of a growing airfield.

Sources: MWAA master-plan update (2025); FAA Record of Decision (2005); FFXnow passenger record; Simple Flying market-share analysis.

The law leaves 25 to 200 feet of air above this parcel.



25 ft allowable at 1,000 ft on the 40:1 surface

Notes: flat terrain at runway-end elevation; generic massing; published FAA geometry, not the unpublished site plan.

Sources: 14 CFR 77.19; FAA AC 150/5300-13B; FAA ALSF-2 specifications; FAA AC 150/5200-33C; analyst geometry.

The 2018 sale protected capacity first. This proposal reverses the order.

THE COUNTER-CASE, AT FULL STRENGTH

$236.5M	424 acres · ≈$558K per acre
≈70%	Estimated global internet traffic through Ashburn
GA 24	Airport should be self-sustaining
LOW	FAA overall plume disruption risk

THE ANSWER, FROM THE SAME RECORD

2018 DISCIPLINE

Build runway + support area → **Sell remaining surplus**

CURRENT PROPOSAL

Sell reserved capacity → **Foreclose the 1L/19R option**

Condition every hazard. You still cannot reverse a land commitment.

Sources: MWAA Western Lands sale; Lightyear Data Center Alley guide; FAA Grant Assurance 24; FAA thermal-plume guidance.

The ask: the gate, not a slogan — sell the surplus, keep the runway.

1
NO APPROVAL
Do not approve from a circulated project email.

→

2
FAA REVIEW
ADO coordination + Form 7460-1 evaluation.

→

3
TECHNICAL PROOF
Glare, plume, EMI + wildlife-safe stormwater.

→

4
FORMAL PLAN
ALP amendment consistent with the master plan.

→

5
REJECT THIS SITE
No study cures foreclosure of reserved capacity.

ARGUE ON THE FAA'S OWN STANDARD

SECTION 163 · CONFIRM WITH COUNSEL

- **A** — **Materially affects safe, efficient aircraft operation**
- **B** — **Endangers people or property on the ground**
- **C** — **Diminishes prior federal investment** **≈$64M in two 2026 grants**

Grant Assurances 19–22 and 29 bind MWAA. The federal lease runs to 2100.

Sources: 14 CFR Part 77; FAA Sponsor Assurances; 49 U.S.C. 47107; Section 163; FY2026 grants; MWAA federal lease.
